

ACC3619 Integrated Perspectives in Business and Accounting / ACC3602 Management Planning and Control Semester 2 AY2017-18

MODULE OUTLINE

Prerequisite

Completed or concurrently taking the following: (a) All BBA (Acc.) core modules; and (b) all other compulsory accounting modules

Teaching Team

NAME	ROLE	EMAIL	OFFICE
A/P Stephen LYNN	Instructor	bizlsg@nus.edu.sg	MRB #07-10
A/P HO Tuck Chuen	Instructor	bizhtc@nus.edu.sg	BIZ2 #03-21

Other faculty may also attend some student presentations and provide feedback.

Learning Outcomes

After completing this module, you would be able to:

1. Apply knowledge gained in various business core and compulsory accounting modules to issues in real-life entities;
2. Integrate knowledge from various business core and compulsory accounting modules in analysing real-life entities;
3. Overview selected advanced topics and contemporary issues in accounting and business.

Teaching and Learning Activities

1. **Cases:** Several weeks would be spent on student presentations relating to a comprehensive group project involving a real-life entity.
2. **Seminars:** Some initial weeks would be spent on lectures covering some advanced topics and current issues.

Textbook

There is no compulsory textbook for this module. Students would need to refer widely to their textbooks for other modules and readings assigned by the lecturer.

Assessment

Component	Weight
Attendance and class participation	10%
Midterm test	10%
