

Information for NUS Business Students embarking on NOC studies pertaining to Biz/TR modules.

All Business Students must be familiar with their own studies/degree programme requirements; ie ULR (GE studies), Biz Degree Programme (ie Biz Core, Specialisation and Honours modules) and UE (Unrestricted Electives). NOC modules fall under UE requirements and cannot be counted toward Biz Degree Programme requirements, other than for the following exception/s:

- (a) TR3203 - Start-up Case Study and Analysis (8MCs) can be read in place of FSP4003 Field Service Project
- (b) TR3002N/TR3002 – can be read in place of BSN3702 New Venture Creation only if TR3002N/TR3002 is letter-graded (i.e. grades ranging from D to A+).

The above concession is subject to the maximum 40% double counting rule (eg: if it is a 40MC NOC, both modules listed above can be double counted but if it is a 20MC NOC, only 1 of the above 2 modules can be double counted).
