#### **Overview**

To create new business opportunities from market and business failures. The purpose of this course is to ensure students understand and apply the following in re-inventing failed businesses:

- The major reasons for business failures (eg: economic market conditions, changing regulations, lack of demand, easy product switch, evolving competition, organizational incapability, etc)
- Global cases of business failures with lessons learned (eg: Kodak, GM, Atari, Nokia, Borders, etc)
- Diagnostic of key failure elements with financial and stakeholder (eg: customers, supply chain, shareholders) impact
- Elements of a turnaround strategy (immediate and longer term) based on goals, requirements, financial and organizational impact
- The tools and methodologies required to successfully restructure an existing failure into a new profitable venture

## **Course Objectives**

Learning objectives include:

- Understanding the reasons for business failures based on market conditions, operations, product type, customer base and financials
- Conducting in-depth analysis and learning from failed global and local business cases
- Diagnostic and prioritization methodologies for assessing and mitigating business failures
- Building a business failure containment plan (eg: cash management, customer data analysis, organizational impact, etc)
- Building a turnaround strategy (eg: new revenues, reduced costs, redefined organization, capital management, operational efficiencies, marketing/sales approaches, competitor oversight, etc)
- Defining key elements of a turnaround 100 day plan (eg: new product elements, financial restructuring, operational & organizational changes, customer acquisition/retention, key metrics, stakeholder communication)
- Developing business, financial and stakeholder communication plans with relevant metrics to assess the impact of the turnaround plan on a go-forward basis for future investment/funding

## **Academic Honesty & Plagiarism**

Academic integrity and honesty is essential for the pursuit and acquisition of knowledge. The University and School expect every student to uphold academic integrity & honesty at all times. Academic dishonesty is any misrepresentation with the intent to deceive, or failure to acknowledge the source, or falsification of information, or inaccuracy of statements, or cheating at examinations/tests, or inappropriate use of resources.

Plagiarism is "the practice of taking someone else's work or ideas and passing them off as one' own" (The New Oxford Dictionary of English). The University and School will not condone plagiarism. Students should adopt this rule - You have the obligation to make clear to the assessor which is your own work, and which is the work of others. Otherwise, your assessor is entitled to assume that everything being presented for assessment is being presented as entirely your own work. This is a minimum standard. In case of any doubt, you should consult your instructor.
